

# A brief introduction to UHI

# Our campus

- Each campus has its own character and contributes to our distinctive university. Some are relatively large colleges in the urban centres such as Perth, Elgin and Inverness.
- Others are smaller, including some whose focus is research.

# Our vision

---

We will be nationally and internationally recognised as a distinctive and innovative partnership which embraces both further and higher education.

**in** the Highlands and Islands

- building upon the strengths of each of its constituent institutions it will make a demonstrable contribution to our communities

**for** the Highlands and Islands

- providing flexible access to opportunities enabled by the use of information technologies

**of** the Highlands and Islands

- drawing on the distinctive characteristics of the region in developing research and teaching

# Learning and teaching

Two faculties offer courses in specialist areas reflective of our environment, culture and heritage and developing economy, as well as a range of core subjects:

## **Faculty of science, health and engineering**

- Applied life studies
